

Monthly Day of Prayer for Mission Mobilization

Ethiopia

God has been working a great work in Ethiopia over the last few decades. The body of Christ in Ethiopia is quite strong. Ethiopia is one of the oldest orthodox national body of believers in the world and is gaining evangelical strength. God has entrusted the church in Ethiopia with much influence in reaching the challenging Muslim peoples of Sudan, Eritrea, Djibouti, Somalia and northern Kenya that surround them. Let's seek God for the needed breakthrough in the national Church to become all God intends them to be in the Great Commission.

CONTEND!

Let's pray...

ABANDONED DEVOTION IN THE CHURCH:

- Believers and local churches not merely having a form of godliness while denying its power (2 Timothy 3:5) but possessing growing hunger and thirst (Matthew 5:6) to experience God to the greatest degree that He has made available through His own grace (Ephesians 3:19).
- Believers and local churches growing in the high and exalted vision of Christ in His supremacy and superiority (Rev. 1:9-17), not perpetuating a small vision of Jesus that fits in their back pocket.
- Believers and local churches increasing in true, Spirit imparted faith and heart level belief that lays hold of God's promises and sees them actualized (Romans 4:17) in their daily lives and circumstances.

GROWING MISSION MOBILIZATION IN THE CHURCH:

- Believers and local churches ordering their lives around Jesus' centerpiece calling of disciples to "seek first the Kingdom of God" (Matthew 6:33) being experienced among all the ethnic families of the world.
- The body of Christ in Ethiopia implementing anointed mission mobilization strategies across every ministry structure (denominations, church networks, etc) trickling down to influence every local ministry.
- Believers and local churches seeing and understanding the centrality of the Great Commission as an ongoing thread throughout Scripture, developing confidence in surrendering their lives for this glorious purpose.
