Egypt

Egypt is an important national Church in God's plan for global harvest at the end of the age. Located in the Middle East, it has the potential of engaging muslim peoples in its own nation as well as those all around it. For over 1,000 years, Egypt was a majority-Christian country, even after the Arab Muslim conquest in AD 640. Egypt gave to the Christian world some of its greatest theologians and the monastic movement. God wants to rekindle that revival spirit and use the Church in Egypt to accomplish great things in the Great Commission in the coming years. Though facing significant opposition, the Egyptian church is being prepared by God for a major role in fulfilling the Great Commission.

**MONTHLY DAY OF PRAYER
FOR MISSION MOBILIZATION**

Let's pray...

Egypt

ABANDONED DEVOTION IN THE CHURCH:

- Believers and local churches cultivating the depth of spiritual life necessary to influence sometimes hostile peoples for the Kingdom of God
- Believers and local churches having their identity rooted firmly in Christ alone and not what they do for God (Ephesians 2:8-9). Finding their value and measure of success in Jesus not in worldly markers.
- Believers and local churches growing in spiritual maturity – coming into the fullness that God has made available through the death and resurrection of Christ.

GROWING MISSION MOBILIZATION IN THE CHURCH:

- The body of Christ in Egypt arising with a burning vision of obeying Jesus' command to "disciple all ethnic groups (Matt. 28:19)" across Egypt and surrounding nations.
- Every local ministry in Egypt becoming an effective, anointed "Great Commission Ministry" – ministry embodying the emphasis on the Great Commission through educating, inspiring and activating their members in their roles.
- Every local ministry viewing mission mobilization as a core, natural process of true discipleship, not an added, subsequent thing.
